205 Standard and GL Vans

205 Standard Van

205 Standard Cab

Combining the style and comfort of a small passenger car with a practical 42.4 cu.ft of load space, the Peugeot 205 Van gives you the best of both worlds with front wheel drive maximising the usable interior space and giving first class handling.

Both Standard and GL models have a choice of either the 1124cc 55PS (40.0kW) petrol engine or the renowned 1769cc diesel engine producing 60PS (43.5kW). With either engine the 205 Van offers lively performance and exceptional economy.

For Standard Vans, a 4-speed all synchromesh gearbox is specified, while GL models feature from a 5-speed gearbox for more restful main road cruising and additional fuel economy. Payload capacities are generous at 420kg for the Standard Van and 415kg for the GL Van (payloads include driver, passenger and any equipment carried). Interior equipment on the Standard Van includes rake adjustable seats trimmed in a practical hard wearing vinyl with padded head restraints. The cab floor is carpeted and the load compartment has a vinyl/felt floor covering. A seat height load retaining bulkhead is fitted behind the seats and there are two load securing lugs at each side of the load area. Access to the load area with its wide, flat floor and ultra slim wheelarches is by the high lifting top hinged tailgate with 6ft.

205 GL Fascia

standing headroom underneath. Load adjustable halogen headlamps, heated rear window, laminated windscreen and a lockable fuel filler cap are also standard equipment.

The 205 GL Van provides further interior refinements including cloth faced seat trim, door armrests, door pockets, glovebox, trip mileage recorder, cigar lighter and radio cassette with twin speakers. Externally, the additional equipment of the GL includes styled wheel trims and a tailgate wash/wipe for added safety.

The 205 Van is built to last, having a 6-year supplementary anti-perforation warranty following the 9-stage protective treatment applied during manufacture. Ask your Peugeot Talbot dealer for full details.

205 GL Cab

205 GL Van

305 GL Vans

305 GL Van

The superbly equipped Peugeot 305 GL Van offers a combination of saloon car comfort and practical load carrying qualities.

There is a choice of a 1580 cm³ petrol engine developing 80 PS (59kW) at 5600 r/min or the refined and economical 1905 cm³ diesel engines developing 65 PS (48kW) at 4600 r/min, both with the benefit of a 5-speed gearbox for quieter cruising & greater flexibility.

The 305 Van's all independent suspension provides a smooth ride with impressive handling and stopping power is provided by servo assisted dual circuit brakes with front discs & rear drums. A load compensator valve ensures balanced braking under all load conditions.

The advantages of front wheel drive and Peugeot's unique rear suspension layout, which permits ultra slim wheelarches, combine to give a wide uncluttered loadspace with a class leading 3ft. 9in. (1.14 metres) load width between the rear wheelarches.

A high lifting top hinged tailgate allows easy access to the 56.5 cu.ft. of loadspace within the attractively styled body.

Payloads are 465kg for petrol models and 505kg for diesel models.

Driver's and passenger's seats are trimmed in attractive grey cloth with padded head restraints and are adjustable for rake. Textured vinyl seats are

peugeot504.info

available as a special order option. A seat height load retaining bulkhead is fitted behind the seats for additional safety. The attractively styled fascia incorporates comprehensive and clear instrumentation. Ample stowage facilities in the cab include door pockets and a glovebox with lid. Standard equipment includes a radio cassette with twin speakers, manual remote control door mirrors, cab floor carpet, tailgate wash/wipe, heated rear window, halogen headlamps and a laminated windscreen. All Peugeot 305 Vans benefit from a 6-year supplementary anti-perforation warranty which is transferable on change of ownership. See your Peugeot Talbot dealer for full details and conditions of this warranty.

504 Standard and GL Pick-Ups

504 GL Pick-Up

504 GL Cab

The Standard and GL versions of the 504 Pick-Up make very practical business sense.

Economical and robust, they combine the versatility of powerful load carriers with the comforts of a saloon car.

The load platform is 2.0 metres long and 1.5 metres wide, with a class leading load width of 3ft. 7 $\frac{3}{4}$ in. (1.11 metres) between the rear wheelarches. The double skinned tailgate is retained by sturdy over centre toggle catches and can be lowered to the horizontal position for normal loading or can be dropped down vertically when necessary.

There is a choice of two powerful engines on both models. They have been specially developed with the power and low speed torque to cope with loads of up to 1265kg on Standard models and 1260kg on GL models (including the driver and any passengers or equipment carried). The 1796cm³ petrol engine with transistorised breakerless ignition develops (80PS) 59kW at 5500 r/min and the 2304 cm³ diesel with rapid pre-heat plugs develops (70PS) 51.5kW at 4500 r/min.

Standard models have a 4-speed gearbox, while the GL models have the benefit of a 5-speed gearbox for quieter cruising & greater flexibility.

The adjustable bench seat is trimmed in attractive easy to clean vinyl on the Standard models. The fascia incorporates

504 GL Pick-Up

clear, easy to read instruments including a clock. A lockable glovebox and door pockets provide useful stowage facilities in the cab and the efficient heating and ventilation system has the benefit of a variable speed blower.

Other features on all models include 2-speed wipers with wash and intermittent wipe facilities, halogen headlamps, reversing lamp, laminated windscreen, wheel trims and ladder rack/cab protection frame with hinged ladder retainers.

A limited slip differential is standard on all models to help you keep going under slippery conditions. The dual circuit servo-assisted brakes have front discs and rear drums.

Additional GL features include cloth seat trim, head restraints, push button radio with twin speakers, cab floor carpet and locking fuel filler cap.

Now available for 504 Pick-Up is an extra protection pack, incorporating a front nudge bar, loadliner to protect the load area and stylish side stripes.

Available as an accessory is a GRP hardtop, giving additional load security with the load capacity of a big van. Check out the features, try it for size, the 504 will measure up to your needs.
